STORY

BE PART OF HISTORY

UHAB is collecting the stories of HDFC shareholders to preserve your memories and knowledge. These interviews will help you reflect on your experiences, make connections across co-ops, and pass your knowledge on to future HDFC members.

Who: Anyone can participate! No experience required: just talk about you.

What: An interview that lasts an hour or two, over the phone or in person. We'll come to you.

Why: Record your story and make sure people understand why HDFC co-ops are important. With your permission, we will publicly share your words online and through our archive.

How: We use *oral history*, a method of recording history that centers your experience. You have control over how your story is told and the final product.
